2nd BULLETIN FROM G8 MY SUMMIT 2010, CANADA

On the 25th Delegates dealt with many themes. In particular they debated on “Mother, Newborn and Child Health”.

Italian Delegates maintained that primary education and education in general play an important role in the growth of human being and also in solving this kind of problems.

Delegates wrote the final document and in the afternoon introduced it to the Leaders: it's necessary facing up to global matters with a human vision and cultural answers, not only economic ones, paying also attention to youth's ideas and proposals.

Then Michaëlle Jean, the current Governor General of Canada, met Delegates with a solemn ceremony.

Tomorrow Delegates will move to Toronto, where the G20 will take place. On the 27th Delegates will present their conclusions to the 20 Leaders.
